DEVISHREE S

Software Developer | Full Stack (MERN) | Data Analytics | AI/ML

Bengaluru, India | +91 7411374717 | devishrees204@gmail.com | linkedin.com/in/devishree-s4 | github.com/Devishree0s

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience across Full Stack Development (MERN), Data Analytics, and AI/ML. Industry experience as a Full Stack Developer, plus a data analytics internship using Python, SQL, and Power BI. Built end-to-end applications combining React/Node.js backends with Flask-served machine learning models, NLP pipelines, and data-driven dashboards. Minor in AI & Data Science (IIT Mandi), Oracle Certified Data Science Professional, with a strong foundation in DSA, OOP, and DBMS.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, Java, C
Full Stack Development: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, HTML/CSS, MySQL
Data Analytics & BI: Power BI (DAX), Excel, EDA, Data Cleaning, KPI Dashboards, Pandas, NumPy, Predictive Analytics
AI / Machine Learning: Scikit-learn, TensorFlow, PyTorch, NLP, Feature Engineering, Model Evaluation, Flask Model Deployment
Core CS & Tools: Data Structures & Algorithms, OOP, DBMS, Git, GitHub, Agile/SDLC, Jupyter, Google Colab

WORK EXPERIENCE

Full Stack Developer | Velankani Group, Electronic City, Bengaluru *June 2026*

- Developed front-end and back-end features using JavaScript-based technologies on live projects within an Agile team, handling coding, testing, and debugging with Git version control.

Data Analytics Intern | Intrainz Edutech *June 2024 – Aug 2024*

- Cleaned and analyzed real-world datasets with Python, Excel, and Pandas; built interactive Power BI dashboards to track KPIs and support data-driven decisions.

KEY PROJECTS

Smart Career Advisor Using Machine Learning *React.js, Flask, Python, Scikit-learn, NLP*

- Built a full-stack ML web app: engineered TF-IDF features from resume/skill text, trained and compared Logistic Regression, SVM, Random Forest, and Naive Bayes models (cross-validated on F1-score), and served real-time predictions via a Flask REST API integrated with a React frontend.

Automatic Question Paper Generation *Python, NLP, TensorFlow, PyTorch*

- Built an NLP pipeline for text extraction and topic/difficulty classification, then applied a fine-tuned T5 deep learning model to auto-generate question papers, significantly cutting manual effort.

Online Exam Registration System *MongoDB, Express.js, React.js, Node.js*

- Developed a full-stack MERN application with JWT authentication, RESTful APIs, a scalable MongoDB schema, and a responsive, modular React frontend.

EDUCATION

B.Tech, Computer Science Engineering with Data Analytics | Alliance University *2026*

CGPA: 8.0 | Minor in AI & Data Science, IIT Mandi (2025)

CERTIFICATIONS & ACHIEVEMENTS

- **Oracle Cloud Infrastructure 2025 Certified Data Science Professional** – Oracle University
- Deloitte Data Analytics Job Simulation | TATA GenAI Powered Data Analytics Job Simulation (2025)
- TCS iON Career Edge – Young Professional | CISCO Data Analytics Essentials (2025)
- IBM Data Science Certificate, Google Digital Marketing Certificate, MS Excel (Coursera, 2025); NPTEL Compiler Design (2025); University Placement Training Bootcamp
